ATA Chapters we focus on: 21, 22, 24, 25, 27, 28, 29, 31, 32, 36, 38, 49, 52, 55, 73, 75, 77, 78, 79, 80.

Fuel

- › Hydro-Mechanical Units (HMU)
- › Main Engine Controls (MEC)
- › Fuel Metering Units (FMU)
- › Fuel Flow Governors (FFG)
- › Main Engine Fuel Pumps
- › Fuel Controls
- › VSV and VBV Actuators
- › Boost Pumps
- › IGV Actuators
- › HPTC and Transient Bleed Valves
- › And more...

Hydraulic & Pneumatics

- › PCU
- › Servo Actuators
- › MLG Actuators
- › Ailerons
- › HSTA
- › High Pressure Control Valves
- › Actuators
- › Pumps
- › Starters
- › BDUs
- › Anti-Ice Valves
- › Bleed Air Valves
- › And more...

Avionics

- › Radio Antennas
- › Power Relays
- › Battery Charges
- › Window Heat Controllers
- › Boeing Control Panels
- › Inverters
- › Flap Position Indicators
- › Flight Mode Annunciator Panels
- › And more...

Technical Support on our Services

- Competitive pricing
- High Quality and extended Reliability
- Automated production planning and control system
- Incoming and final testing, with records available to customers for review
- Shop segregation to accommodate and maintain control of work-flow
- Inhouse engineering for continues Test Benches upgrades without delaying any work-in-progress
- Spacious work environment with capacity to store "Third Party" inventory

New Equipment

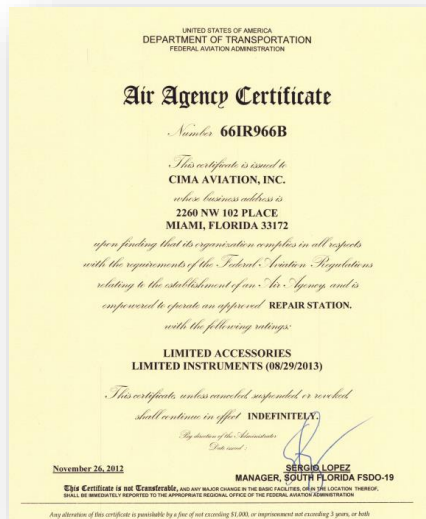

- ▶ BAUER HMU/FMU Test Stand 1538 Series
- ▶ HYD Test Bench Avtron H250 – ADAS
- ▶ Brand New Starter Test Stand – Capable of testing up to B777 Starters
